Med Miled Cherif

Programmer Analyst — Cybersecurity & Compliance

Gatineau, Quebec · +1 438 922 5717 · mod.cherif@gmail.com · Trilingual FR / EN / AR

Profile

Programmer analyst in a hospital environment, graduate of an AEC in network architecture and management and holder of a bachelor's degree in computer science — software engineering. I build and maintain Django web applications that handle sensitive data: access management, activity logging, compliance and deployment on Windows Server. Solid grounding in network infrastructure and information security, with a strong interest in projects where software development, networking and cybersecurity meet.

Technical skills

Development
Python, Django, JavaScript / TypeScript, HTML, CSS, SQL

Databases
PostgreSQL, Django ORM, schema design, database migrations

Cybersecurity & compliance
Risk assessment, access control, audit logs, NIST, ISO, HIPAA, PHIPA, GDPR

Networking
Network architecture, VLANs, inter-VLAN routing, subnetting, DHCP, DNS, Cisco fundamentals

Systems & deployment
Windows Server, IIS, virtualized environments, debugging and releases

Tools & collaboration
Git, GitHub, REST APIs, Microsoft Office, Asana

Professional experience

Programmer Analyst — SecureAssess

May 2026 – present

Montfort Hospital, Ottawa, ON · hired following an IT and cybersecurity internship

- Building SecureAssess, a web platform for managing risks, controls and compliance documentation.
- Configuring features for users, organizations, assessments and approval workflows.
- Implementing authentication, authorization and permissions based on roles and access levels.
- Integrating external cybersecurity APIs (URLScan, XposedOrNot, Have I Been Pwned) to enrich security analysis.
- Working with PostgreSQL, Django ORM, database migrations and activity logging to ensure full traceability.
- Developing bilingual interfaces (FR/EN) and writing technical documentation, user guides and progress reports.
- Deploying, debugging and continuously improving the application in a Windows / IIS environment.
- Applying best practices for sensitive data protection and compliance with security standards.

Junior Developer — TimeLapse

February – July 2023

Sousse, Tunisia

- Contributed to the development and deployment of a technical platform.

- Helped shape the application architecture and optimize technical processes.
- Analyzed requirements with the team and delivered features.

Intern — UL Upper Link

Summer 2022

Tunisia

- Organized and updated project technical documentation.
- Prepared tracking and support documents.
- Used project tracking tools in collaboration with the team.

Delivery Driver — Self-employed

2023 – 2026

Gatineau, QC

- Planned routes independently and managed competing priorities.
- Handled customer relations and resolved issues quickly.
- Maintained reliable service in a demanding, fast-paced environment.

Projects

SecureAssess

Risk and compliance management: roles, assessments and audit trails.

Django · PostgreSQL · security APIs

YourMove

Web app connecting customers with movers: accounts, requests and bookings.

Django · PostgreSQL

TrackTarget

Performance statistics and target tracking for sales and marketing teams, built at TimeLapse.

Django · PostgreSQL

Education

AEC — Network Architecture and Management

Cégep de l'Outaouais, Gatineau, QC · 2023 – 2026

Network infrastructure, systems administration, network security and services. Graduated.

Bachelor's Degree in Computer Science — Software Engineering

École Polytechnique de Sousse, Tunisia · 2020 – 2023

Final-year project completed with high distinction (« Très bien »).

STI2D Technological Baccalaureate

France · 2019

Industrial sciences and sustainable development technologies.

PAREO University Diploma

Université Paris Descartes, France · 2020

« Passeport pour réussir et s'orienter » — academic orientation program.
